CHART CHAMP

Welcome!

Now in it's 8th year, Chart Champ brings together the data analytics community from throughout New England.

Whether you're an analyst building amazing visualizations, or a data engineer doing ELT/ETL and cloud warehousing, Chart Champ has something for you.

If it's your first Chart Champ - Welcome. You're gonna love it. And to the event veterans - Thank you. You're support over the years is much appreciated. We'll see you on campus!

DUSTIN CABRAL
Practice Director
Data Visualization & Analytics

Modern Cloud Infrastructure for Manufacturing IT & Analytics

Girish Nair
Information Technology Manager, IT Data and Analytics, Teradyne

THE DASHBOARD COMPETITION

Two of our past champions went on to become **Tableau Visionaries**. Do you have what it takes to be crowned the next Chart Champ?

Here's how to enter this year's competition:

Register for the event

Get the data: There are numerous data sources out there about higher education. We recommend checking out the BU Public Data Sets, the US Department of Education, or Kaggle!

Build & Submit: You must build and submit your dashboard by **September 22, 2023.**

NEW THIS YEAR
Five finalists are usually required to be in-person at the event. This year we will allow two remote-finalists to record their presentations.

1st PLACE PRIZES
👑 Crowned Chart Champ 2023
💰 $1,000 Amazon Gift Card
🙌 Eternal glory

This year's theme is higher education!

WHO SHOULD ATTEND?

Over the years, over 3,000 analysts, tableau developers, data engineers, and senior IT and analytics leaders have attended Chart Champ.

ATTENDEE PROFILE

10% C-Suite Executives

11% Directors

38% Managers

42% Analysts

2023 PARTICIPATING ORGANIZATIONS

Partial list as of 9/8

THANK YOU!

A sincere thank you to our sponsors Tableau and dbt Labs, our supporting organizations Maven Analytics, The Data Visualization Society, Data Careers Summit, the Boston Tableau User Group, and Boston University hosting this year!

Tableau helps people and organizations become more data-driven with the most beloved modern analytics platform in the world.

dbt is a data transformation framework that lets analysts and engineers collaborate using their shared knowledge of SQL.

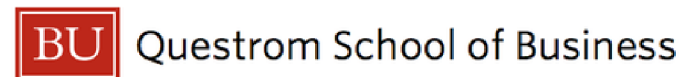

Maven Analytics empowers everyday people to land their dream jobs in data analytics and business intelligence.

Where Data Visualization Practitioners and Enthusiasts Connect.

Helping individuals break into & move up in the data analytics field.

We believe in asking, "What's next?" More than that, we believe in having an answer.

See you at our next event!

Women in CONSULTING
@Simmons University

Empowered women empower women. Hear from leaders inside the field and find out if consulting is a good fit for your career.
